

FIND OUT HOW BLUECREST RECOVERY CENTER
CAN HELP YOU ON THE ROAD TO RECOVERY
Your call is always confidential.

W HERE THE IMPOSSIBLE
BECOMES POSSIBLE.

*For the last 20 years I have witnessed
transformations that never cease to amaze me.
Being a part of this has been a privilege and
an honor. Like many of us at BlueCrest,
the first recovery transformation began
with my own.*

*Strong clinical groundwork and spiritual
experiences — woven together, creates an
unshakable foundation for life. My experience
has shown me that, when properly combined,
this approach can and does yield dramatic,
life-saving results.*

*At BlueCrest Recovery Center, we are dedicated
to transforming lives by ending the destructive,
potentially fatal cycle of alcohol and drug
addiction. If you or a loved one are suffering
from addiction, please speak with us. We can
help you make a beginning. We can help set you
on a path to sustainable, lifelong recovery.*

*Every journey begins with the first step.
There IS hope and you CAN recover.”*

*Richard Hession,
Chief Executive Officer*

RECOVERING THE MIND, BODY & SPIRIT

WHAT MAKES US DIFFERENT?

THE BLUECREST EXPERIENCE

Here at BlueCrest, we pride ourselves on our ability to make each client — and their family, feel they are important, respected and loved. By fostering a family-like atmosphere, our compassionate staff can break down reoccurring barriers that may exist in a client or family dynamic. By reprocessing these feelings and reestablishing these relationships, a client can approach sobriety with enthusiasm rather than shame.

Substance abuse treatment is “triage”—an urgency to address the illnesses and the unmanageability that results from it. Here at BlueCrest, we believe that “triage” is not enough. Treatment is not enough. The true test is whether the individual leaves with enough education, support, and confidence to sustain their own sobriety beyond the safety-net of our walls. One of the most important aspects of our program is assisting clients with their transition back home or to independent sober living.

We incorporate the successful tenants of the twelve steps into our treatment. By encouraging clients to engage in twelve-step programs outside of our facility, we can insure that each individual discharges with a sponsor, sober network, and a true introduction to the Fellowship of their choice.

These unique aspects are the true elements of what separates BlueCrest Recovery Center from the rest and leads to life-long, sustainable recovery for our clients.

BlueCrest Recovery Center, located in Woodland Park, New Jersey, provides a unique approach to substance abuse treatment with empowered, quality care by seasoned and compassionate clinicians.

TAKING THE FIRST STEP

Every experience is unique, yet all individuals who turn to recovery have one thing in common — the first step is the pivotal moment of transition into a better life. It holds the hope that the story isn't over. In fact, it's just beginning.

The first step takes courage. It is essential to be met with compassion, surrounded by support and in an atmosphere of family, trust and comfort. Our exceptionally talented, passionate staff provides the necessary guidance for clients to free themselves from the bondage of addiction, through proven practices that have saved countless formerly hopeless sufferers — including several of our experienced staff. When you take the first step and call, our trained and caring staff will answer questions, gather some basic information, and schedule you for your individualized assessment.

RECOVERING THE MIND, BODY & SPIRIT

SERVICES & PROGRAMS

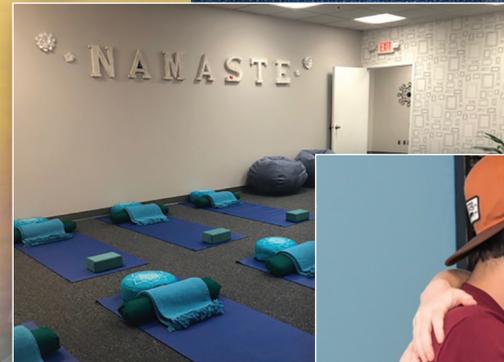

BlueCrest Recovery Center believes that all clients have the capacity to recreate their lives, regardless of current circumstances or barriers. We offer an array of drug and alcohol addiction treatment services that include:
