Clarity Treatment Center is a comprehensive and compassionate outpatient treatment center for adults seeking treatment for addiction, alcoholism, and co-occurring disorders. Clarity Treatment Center's diverse team of clinicians and specialists provide evidence-based treatment through a holistic and culturally competent approach that is effective and efficient for the client. The clinicians and clients together formulate and implement a personalized treatment plan addressing clients' individual needs. Clarity Treatment Center strives to guide each individual and their families throughout the recovery process with the goal of living life to its full potential - free from addiction.

What We Provide

The goal of treatment is to sustain recovery and learn new ways to manage life. How one reaches this goal will vary depending on the individual's need. It is important to develop treatment plans that complement the individual and their unique recovery needs.

Clarity Treatment Center offers effective treatment for alcoholism, drug addiction, and co-occurring disorders. Through an integrated process of recovery that includes client-centered treatment and support from the client's family and community, the client will have greater success in living a healthy life. greater success in living a healthy life.
