Research Participants Needed

Joshua Miller, Ph.D. and the Miller Lab are investigating early biomarkers of age-related cognitive decline by correlating peripheral microvascular abnormalities with structural brain abnormalities

- We invite adult men and women 60 years of age or older with or without cognitive impairment
- The research involves 3 visits (approximately 1 hour each):
 1. Complete eligibility screening
 2. Have the small blood vessels in the white of the eye video-recorded and complete a blood draw
 3. Complete a Magnetic Resonance Imaging (MRI) brain scan
- If you complete the requirements you will receive a \$50 gift card
- Scan the QR code or contact us for more details at miller.lab@sebs.rutgers.edu
